OUR VISION

To be recognized as the biggest exporter in Packaging industry in Dubai and to be the global brand in the Packaging industry.

OUR MISSION

To protect & keep our values and to get progressive growth in market share locally and targeted up country markets by empowered team of expertise being utilized in major market spheres.

OUR VALUES

Ability to deliver right product in desired quality, quantity and on time. Having latest and highest technology. We believe in clear agreement & open communication with our customers & employees.

INTRODUCTION

Welcome to NOORTECH PACKAGING Fz LLC (2014), It is subsidiary company of KANBARIEH GROUP INTERNATIONAL 1970, NOORTECH PACKAGING Fz LLC (2014) the world of Advanced Packaging Technology & Solutions. We are one among most advanced world-class specialty packaging materials manufacturing company backed with most modern innovative production techniques, highly trained, professionally qualified staff, best quality standards & checks.

NoorTech experience and attention to detail will provide solutions that enhance brand awareness and increase the purchase appeal of your product. Working with customers around the world, NoorTech has built a reputation for delivering the highest levels of quality, technology, and service to manufacturers of Packaging Product, NoorTech has the solutions to all your flexible packaging needs.

Simple, fast, easy to use

It can use microwave without burning or melting.

Lightweight

Customized depends on needs

Reclaimable, Recyclable, and Renewable

The image shows several stacks of black plastic containers, likely for food or industrial use. Each container has a distinctive Greek key (meander) pattern in a lighter shade of gray or black, running horizontally across its side. The containers are stacked in a way that shows multiple layers, with the top of one stack in the foreground and another slightly behind it to the right. The background is a plain, light gray surface.

GARBAGE BAG

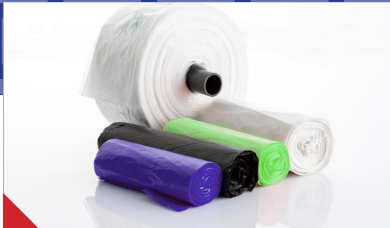

22

PLASTIC BAGS

A **plastic** bag, polybag, or pouch is a type of container made of thin, flexible, plastic film, nonwoven fabric, or plastic textile. Plastic bags are used for containing and transporting goods such as foods, produce, powders, ice, magazines, chemicals, and waste. It is common form of packaging.

The plastic used to make bin bags is the rather soft and flexible LDPE (Low Density Polyethylene) or, for strength, LLDPE (Linear Low Density Polyethylene) or, HDPE (High Density Polyethylene) are sometimes used.
